

THE ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 18

Fall 1988

Number 4

---

CONTENTS

Weakly close-to-convex-functions By ALBERT E. LIVINGSTON .....	719
On socles of abelian $p$ -groups on $L$ By MANFRED DUGAS AND RENE VERGOHSEN .....	733
Groups of isometrics on operator algebra II By STEEN PEDERSEN .....	753
Regularity and uniqueness of certain systems of functions annihilated by a formally integrable system of vector fields By CHONG KYU HAN .....	767
Stability properties of periodic solutions of periodically forced non-degenerate systems By ALAN R. HAUSRATH AND RAUL F. MANASEVICH ....	785
A note on the application of topological transversality to nonlinear differential equations in Hilber spaces By D.O. REGAN .....	801
Two concrete new constructions of the real numbers By ARNOLD KNOPFMACHER AND JOHN KNOPFMACHER ..	813
Convergence of a class of deficient interpolatory splines By S.S. RANA .....	825
Fully invariant submodules of $p$ -local balanced projective groups By MARK LANE .....	833
Volume Index to Volume 18 .....	847
